

# Bordeaux Pharmacoepi Festival, 8<sup>th</sup> edition

## 21, 22, 23 May 2019

### Venue:

**Bordeaux University, Campus Bordeaux Victoire and school of law Pey-Berland, Bordeaux, France**

The Bordeaux Pharmacoepi team is happy to announce the **Eighth Bordeaux Pharmacoepidemiology Festival**. Over three days, eleven world-class experts will come to Bordeaux to talk of the topics of their choice.

### Tuesday 21 MAY 2019 *Amphi Sigalas, Campus Bordeaux Victoire, Place la Victoire*

- 9:00 **Session in collaboration with COPSICOM**  
**Catherine Quantin (Dijon, France)**  
 The validity of diagnoses in public health databases
- Invited speakers:**
- Alexander Geissler (Berlin, Germany):** Measuring, reporting and using hospital quality data in Germany
- Marie-Annick Le Pogam (Lausanne, Suisse):** Is it possible to compare Switzerland and France using medico-administrative data: the example of Risk-Adjusted Rates of Adverse Events After Hip Or Knee Arthroplasty. (Title to be confirmed)
- Rosa Gini (Florence, Italy):** Identification of diseases in heterogeneous data sources: lessons learnt from an acute disease, a chronic disease, and an infectious disease
- Michal Abrahamowicz (Montreal, Canada):** Simulation-based evaluation of statistical methods to correct for diagnosis mis-classification in pharmacoepidemiological database studies
- 14:00 **Tania Schink (Bremen, Germany)**  
 Internal validation of outcomes in public health databases

### Wednesday 22 MAY 2019 *Amphi Duguit, School of Law, Place Pey-Berland*

- 9:00 **Giuseppe Traversa (Rome, Italy)**  
 Italian resources in pharmacoepidemiology
- 14:00 **Gianluca Trifiro (Messina, Italy)**  
 Challenges in postmarketing surveillance of biologics in the era of biosimilars
- 17:00 **General Public Conference, Bernard Bégaud (Bordeaux, France)**  
 "A quoi peut servir la pharmacoépidémiologie ?"

### Thursday 23 MAY 2019 *Amphi Sigalas, Campus Bordeaux Victoire, Place la Victoire*

- 9:00 **Kristian B. Filion (Montreal, Canada)**  
 The safety of antidiabetic drugs, and Distributed Drug Safety Networks/CNODES
- 14:00 **Ron Herings (Amsterdam, Netherlands)**  
 Scenario and prediction modeling In pharmacoepidemiology for health personalization

Registration fees			
<b>Free 0 €</b>	<b>Student 69 €</b>	<b>Public pros 249€</b>	<b>Private pros 399 €</b>
<ul style="list-style-type: none"> <li>Fellows of ISPE</li> <li>Honorary members of ISoP</li> <li>Epidemiology and pharmacoepidemiology Master students from Bordeaux University (including Eu2P Master students)</li> </ul>	Other students	Academic, regulator	Industry
